Dear sponsors: I greet you lovely. I would like to tell you that I am happy to be at the project and share with my friends. I am learning the square root in math and it has been difficult because I have not learned to multiply but I have to study hard. I shared my vacations with my family and we enjoyed Christmas and New Year eating tamales.

I am living in a place where the roads are not paved. We do not have enough water service. The project is far of my house and sometimes I take the bus. Our neighbors organized a Christmas party and we are collaborator because we like to help. I say goodbye to you with so much love.
